Others in attendance: Herbert L. Terreri, Jess Raphael, Sarah, Kate Haley and Mo Whiteside. On the Zoom call were Amada Hagar, Cindy Morey and Debbie Trujillo.

APPROVAL OF MEETING MINUTES: Minutes from the 27 January 2024 meeting were approved, 5-0.

NEW BUSINESS:

Raphael 1/91 (44081 Noyo Way): Phase I New Home Construction (NHC) Application.

The applicant's Designer, Kate Haley, led the presentation of the Phase 1 site review. The application is for a 1312 sq ft, 1 bedroom home to be built on the small lot. The applicant will be requesting a variance (section 5.3c) to build the structure closer than the 14 ft setback to an open lot requirement on both sides owing to the narrowness of the lot. Ms Haley presented the maps and documents required in this Phase 1 review to establish the building envelope following the NHC Presenter's Script.

There was extended discussion regarding the requested variance and the effect of the proposed structure on the potential view corridors of neighboring properties. The applicant and Ms Haley presented drawings that represented studies of potential impacts and possible building home sites within the string of small narrow lots along Noyo Way to be able to maintain the necessary 28' eave to eave requirement of section 5.3b.

Concern was expressed by Amanda Hagar's attorney, Herbert L. Terreri, that the application was not complete as it did not include these studies and there was inadequate notification. The board reviewed the objections and a lengthy discussion ensued, but it was pointed out that a committee of a 501(c)(3) is not subject to open meeting laws, but is bound only to the requirements of the CC&Rs.

Mr. Raphael will meet with Mr. Terreri on the proposed building site after the adjournment of the meeting to have a physical review of the project to address questions.

It was proposed that this Phase 1 review only review and approve the Phase I building envelope, and any further actions will be addressed at the Phase II.

RJ Dial moved and John McGehee seconded the following motion: "Approve the proposed building envelope only. The requested setback (section 5.3c) variance will

be on the Phase 2 review.”
Motion approved 5-0.
